

Jobs Module

Search over 2 million
job postings by:

- Company Name
- Job Type
- Location
- Keyword
- Salary

Start Your Job Search Now!

1. Login to **Data Axle Reference Solutions** through your library.
2. Click on the **U.S. Jobs and Internships Database**.
3. Use **Quick Search** to search for a job using a keyword or City, State, Zip Code.
4. Use **Custom Search** for more detailed searching. Search by exact phrases, keywords, companies, types of jobs, salary, location and even how long ago a job posting was created.
5. On the Search Results page, click on the **Job Title** to learn more about the job and even apply online.
6. To learn more about the hiring company, click on **Company Name**. This will link to the Data Axle Reference Solutions business profiles if available in the database.
